

Cooling Tower Hurricane Preparedness

- Pre-storm Prep
- Post-storm Repair
- Rental Cooling
- 24/7

Steps to minimize damage to your cooling tower in the event of a hurricane

- Shut off electrical supply to the mechanical equipment
- Tie fans down to prevent windmilling
- Tie down or remove any loose items on the fan deck
- Secure any loose casing or louvers

SPX Cooling Technologies is prepared to help both before and after the storm.

Our crews can assist with pre-storm preparations as well as post-storm repairs.

- SPX maintains a local inventory of critical cooling tower components.
- Our manufacturing facilities are prepared for emergency service.
- Engineers are on standby, ready to design temporary repairs or custom solutions to bring your tower back online quickly and efficiently.
- SPX Cooling Technologies' fleet of Marley rental cooling towers can deliver the extra capacity you need to keep running.
- Available 24/7.
