Capacity Represented in Flow (gpm)

N/A Performance information not available for these conditions

Table with 3 columns: Product Name, MD, and a grid of 30 columns representing flow rates (67 to 98.6 gpm).

Main data table with 30 rows (MD5006NLDL to MD5018JLUD) and 30 columns (HP to 98.6 gpm). Each cell contains a numerical value representing flow capacity.
